@FrontEndAcademy

About:

I love building beautiful modern web and mobile applications. In addition to my technical frontend and backend skills, I am a strong problem-solver and creative designer. I believe in using technology to improve business and the world.

Experience

Appit/Appconic Inc / Founder - CEO - CTO

09/22 - Present

Leading a startup focused on mobile and web app design and development, as well as social media marketing, for professionals, start-ups, non-profits, and SMB clients.

Schoolade / React Native Engineer

01/22 - 08/22

Designed, and developed an engaging responsive React Native app for Schoolade, an EdTech Startup, integrating Firebase. Utilized custom interactive animations to build an engaging user experience.

Freelance / Full Stack Developer (contract)

01/21 - Present

Updated, optimized, and built new features for React and Ruby on Rails web apps for small medium and large companies. Worked with databases and API's.

Segura & Co / Ruby on Rails Engineer

01/20 - 12/21

Prototyped, built, tested, and deployed a business Ruby on Rails web app integrating a Posgresql database for client account management featuring custom branding.

Zoom Auto / Web Developer + Sales Manager

01/18 - 01/20

Designed, developed, and maintained a Bootstrap dynamic website featuring a custom product gallery, animations, interactions, and branding.
